SCAN & VISIT

PROFILE INFO

I've been creating and managing web applications with the Laravel framework for two years. I'm looking for a challenging position in a fast-paced firm where I can put my knowledge and talents to use and help the business develop.

WORK EXPERIENCE

Web Developer

June 2021 - Present

Synamen Thinklabs Pvt. Ltd.

- Designing and building web applications using Laravel.
- Creating REST APIs for App developers using Laravel.
- Develop and maintain databases to store website data.
- Integrated Packages such as Socialite, Spatie Media Library, Laravel Breeze, Dom PDF, Livewire, and Filamentphp.
- Payment Gateway integration using Razorpay.
- Creating unit tests and feature tests using PHPUnit.

Project Description

1. Nammaboomi Greens

- **Objective:** To create a web application for changing existing offline customers to online customers.

2. Premier Kitchen

- **Objective:** To create a web application for managing internal field service.

3. Nutricurate

- **Objective:** NutriCurate helps you generate nutrition labels for all your recipes within minutes in FSSAI-recommended format.
